

FLAG Membership Drive

The Year of Languages

Let's speak up for foreign language in our state!

As part of our "Celebrate The Year of Languages" theme, FLAG would like to boast a membership of 1,000 by December 31, 2005. What better time to make sure your own membership stays current? And what better time to encourage your colleagues to join? If not now, then when?

We all know that the strongest organizations are those having the loudest voice, those with the largest membership. FLAG is strong, but we can be much, much stronger with a larger chorus of voices. We all know that in difficult economic times, we in foreign languages have to fight. We must speak up for our profession and our discipline.

FLAG needs you, our current membership, to reach out to your colleagues and to urge them to join today!
